William A. Kibbe & Associates, Inc. provided complete architectural and engineering design services for the addition and renovation of the Catholic Diocese of Saginaw.

The purpose of this project was to provide a front entrance, lobby and reception area for the administration offices of the Catholic Diocese of Saginaw. A focal point of the addition is the curved reception desk with a skylight directly overhead.

Included in this project was the renovation of two elevators. One elevator is used for entry to the administrative offices and the other is located in the educational section of the facility to be used by students and faculty.
