

Holiday Inn Express

Project Profile

Holiday Inn Express Saginaw Twp., Michigan

Architect & Engineer: William A. Kibbe & Associates, Inc.

Developer: Towne Centre Development, LLC

Project Type: Hotel/Hospitality

Project Information

Building Size: 53,000 SF

Completion Date: June 2001

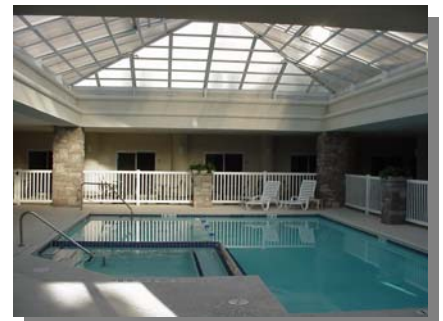

Cost per Sq. Ft.: Approx. \$ 95

William A. Kibbe & Associates, Inc. provided complete architectural and engineering design services for this new prototype Holiday Inn Express facility in Saginaw Township, Michigan.

This was the first prototype of its kind to be built in Michigan. The enclosed swimming pool including a retractable 30' x 50' skylight, which was also unique to the design.

The hotel contains 98 guest rooms, meeting & conference rooms, gathering & breakfast area, arcade style game room, swimming pool, exercise room, and locker room facilities to be made available for local businesses.

By working closely with the developer and sub-contractors, the project was completed on time and within the project budget. This project was completed using the design/build delivery system.
