

State Route 424/US-24 Watermain

William A. Kibbe & Associates, Inc. provided complete design and construction engineering services for this 4,660-LF extension of 12" PVC Water main in the City of Defiance, Ohio.

The project included connection to the existing water distribution system at one (1) location, a bi-directional bore of US-24 Highway (2 lanes), a bi-directional bore of ANR high-pressure gas mains, and connection of new customers.

By working closely with the owner and contractor, the project was completed on time and within the project budget. This project was completed using the design / bid / build delivery system.
